

My name is Becca Wertheimer and I run a small business called Storied. I believe your stories are worth sharing. I record, edit, and make you audio interview a thoughtfully crafted gift.

Storied is my answer to preserving family history, lore and funny tales. It is my unique way to facilitate story sharing while also communicating what you love, admire, and have learned from those around you.

As a Licensed Clinical Social Worker for over a decade, I have spent hours honing the skills of listening, asking questions, and helping people feel comfortable sharing. With Storied, I use my skills to promote joy and connection.

### **HOW IT WORKS:**

When you have a story, memory, or an audience in mind, let's talk. Every Storied experience includes a 15-minute consultation call. This gives us a chance to get to know each other a bit, allows you to set the tone and direction of your story, and ensures you get the most out of your Storied interview session. From there we will set up an interview time and get started.

### **INTERVIEW PROCESS:**

The interview process is tailored to your specific story and intended audience. I am here to support you in sharing your story in a way that feels relaxed and enjoyable. I will lead the interview. The only prep you have to do is look over the questions and jot down anything you don't want to forget to share. I try to get to most of the questions but will allow for the natural progression of the conversation as well.

To record the interview, I use a few different platforms:

**In person:** If you are near Portland, Maine come join me in my Storied studio trailer located at 19 Concord St, Portland, Maine.

**Riverside.FM:** You will need a laptop/desktop or phone with good internet, headphones and Chrome browser. It is similar in look and function to Zoom in that we will be able to see each other but only audio will be recorded.

**iCall Recorder:** Can be used on a landline. I call you and record it on my end.

\*\*\*With any of the remote recording platforms, please try to be in a room with the door closed, windows closed, fans off in order to cut down on any background noise.

## **COST AND FINAL PRODUCT:**

### **Up to a 90 minute package for \$300**
