

Storied

TALK TO ME. SHARE WITH THEM.

My name is Becca Wertheimer and I run a small business called Storied. I interview people about stories they feel are important to share with those they love. I have always loved talking to people and hearing stories about their lives. As a Licensed Clinical Social Worker for over a decade, I have spent hours honing the skills of listening, asking questions, and helping people feel comfortable sharing. With Storied, I use my skills to promote joy and connection.

Storied is my answer to how preserve family history, lore and funny tales. It is my unique way to facilitate story sharing while also sharing what you love, admire, and have learned from those around you.

HOW IT WORKS:

When you have a story, memory, or an audience in mind, let's talk. Every Storied experience includes a 15-minute consultation call. This gives us a chance to get to know each other a bit, allows you to set the tone and direction of your story, and ensures you get the most out of your Storied interview session. From there we will set up an interview time and get started.

INTERVIEW PROCESS:

The interview process is tailored to your specific story and intended audience. I am here to support you in sharing your story in a way that feels relaxed and enjoyable. I will lead the interview. The only prep that you will have to do is look over the questions and jot down anything you want to be sure to remember to share. I try to get to most of the questions but will allow for the natural progression of the conversation as well.

To record the interview, I use a few different platforms:

Riverside.FM You will need a laptop/desktop or phone with good internet, headphones and Chrome browser. It is similar in look and function to Zoom in that we will be able to see each other but only audio will be recorded.

iCall Recorder: Can be used on a landline. I call you and record it on my end.

In-person: If you live in the Portland, Maine area we can record in-person in my office/studio space in South Portland (855 Sawyer St, South Portland).

PLEASE NOTE: With any of the remote recording platforms, please try to be in a room with the door closed, windows closed, fans off in order to cut down on any background noise.
